Personal Brand Statement:

Musician who can also code. Whenever I am confronted with something that is out of my comfort zone, I try to break it down into as small of parts as possible so that I can solve it efficiently.

Skills:

Front End Web Development:

- HTML
- CSS
- JavaScript
- React

Back End Web Development:

- Node
- Express
- Python
- Django

Relevant Experience:

General Assembly: SEIR

I am currently taking a Software Engineering Immersive course and so far, I have created a flash card app called "Flash Cars" that also incorporates the same set of skills, an app called "Rush iToonz" which is created with the software React that uses an iTunes API, and a final project called "Bassopedia," which uses React for the frontend and Python and Django for the backend. (CRUD and Authentication will be implemented soon)

Relevant Projects:

Modal can be found here: <https://codepen.io/jnas25/project/full/AKqNzk>

Flash Cars, Rush iToonz, and Bassopedia can be found in my portfolio here:

Experience:

Adelphia Wine Company:

I worked at all liquorstore for over 2 years and I was responsible for putting back stock liquor, beer, and wine in the right places in the basement as well as restocking the shelves in the store. During shifts, sometimes it would be difficult to find space in the basement, so I had to figure out different ways to make room, but keep the area organized.

Princess Cruises:

I worked on a cruise ship two summers ago as a performing musician on a month long contract. I was responsible for being the bassist for the house band and was required to rehearse and perform the music. Sometimes the music would be hard, but I would be patient and try to prepare the music given to me as best as I could before every rehearsal.

Education:

General Assembly SEIR: June 22nd – September 15th, 2020 Remote

General Assembly FEWD: March 24th – May 28th, 2020 Remote

Rutgers University-New Brunswick, NJ

Mason Gross School of the Arts MM in Jazz Bass 2017 - 2019
